# ACKNOWLEDGEMENT

---

The **first**, we would like to express my special thanks of gratitude to my teacher <<*Miss ambreen mehmood*>>, who helped us a lot in finalizing this project within the limited time frame, valuable counselling and assistance for the accomplishment of this project.

**Secondly** we would also like to thank the E-Project team at Aptech Head Office, who gave us the golden opportunity to do this wonderful project about Aura Watch.

**Thirdly**, we also thank the E-Project team, some of the benefits are as under:

- Re-enforcement of skills happens in the experiential learning process.
- A mentor, ensuring that we do not get drifted, constantly guides us.
- It gives us a lot of confidence to face an interview as we have worked on a project. We can explain virtually everything on the subject we have learnt.

# SYNOPSIS

---

Follow the strong development of the internet, every business needs a website to display products on the internet.

But our motive is to make and promote those websites which are knowledgeable and also be interesting like ***BIDSPIRIT*** which provides us the knowledge about different auctions.

---

# ***PROBLEM DEFINATION:***

## Problem Statement:

BidSpirit is the world's leading online marketplace for fine art, antiques, furniture and collectibles. We make it easy for collectors from around the world to discover and acquire the items they are most passionate about all in one place.

BidSpirit e-auctioning portal is one of the most preferred sites in the industry. It is

certainly a smart and modern substitute to manual auctions. We aim to provide real-time

pricing and ensure to facilitate wider participation of bidders, thus offering better selling rates.

BidSpirit e-auction platform has been helping clients carry customized online auctions, in

such a way that their profit is maximized. Now, the time to get stuck in the lengthy

auctioning paperwork has gone; we have brought a revolutionized technique, where the

entire process can be carried under your fingertips.

You are supposed to create a Single-Page-Application and responsive Website for

them with the below mentioned requirement specifications.

The website is to be developed for the Windows Platform using HTML5, JSON, Angular JS, JavaScript and Geolocation. The site should work well in all leading.
